DISCOVER THE 5 BENEFITS OF SHIPPING YOUR LUGGAGE INSTEAD OF CHECKING IT.

HOME PICK-UP ON REQUEST

The door-to-door service option allows you to schedule baggage pick-up in the most convenient way, according to your needs, without interfering with your commitments or your working hours.

EASY PLANNING

Our MBE Centers offer simplicity and speed of planning: you just have to communicate the destination address, number, weight and size of baggage and when you want them to be shipped.

SAVING TIME FOR EACH STEP

Deleting the time spent at check-in and baggage claim could save you a very variable amount of minutes, sometimes hours, for each step of your trip - allowing you to enjoy the time gained as you like best.

LESS QUEUE = LESS CONTACTS AT THE AIRPORT

Using the shipping service significantly decreases the number of interactions at the airport during the baggage delivery and collection process. So you can avoid finding yourself in areas with a high concentration of people.

TRACKING AVAILABLE

Thanks to the tracking service, you can be informed about the status of your shipment.
