GET ONE PARTNER TO MANAGE

ALL YOUR E-COMMERCE ORDERS.

DISCOVER HOW TO IMPROVE YOUR CUSTOMERS' SHOPPING EXPERIENCE AND SIMPLIFY EVERY PROCESS.

Running an **online** business requires commitment, expertise and a full view of all the different tools available on the market.

If your business includes an e-Commerce site, you may have wondered **how to improve your platform's user experience** or how to **boost the shipping** of your products during the peak season or maybe you have asked yourself how you can offer a **reliable return service**.

The answer is to find the right partner who has the capacity and experience to assist businesses in managing the end-to-end supply chain and give a sprint to their online shops.

Discover how MBE can be your single Partner for your e-Commerce daily activities.

Customized logistics

Finding a **logistics Partner** that adapts to the needs of your online store is not easy, because few can guarantee the necessary space and flexibility. If you choose to rely on MBE, you can count on **hundreds of physical locations** and on a fully customized logistics service.

You can monitor the **status of orders** and the **shipment of products** without worrying about managing warehouse processes.

We will take care of everything, by listening to your needs and finding – together – **the solution that best simplifies your work.**

Automated order shipping

Optional collection and packing service

By smoothing your warehouse processes, you will also achieve an optimization of the end-to-end flow: everything will be faster and easier to analyze.

By entrusting us with the **picking, assembly and packing activities**, you will be able to effectively tackle complex – and finally automated – tasks.

Customized picking and packaging

Automation of warehouse processes

Order management and returns

Nowadays offering a **fast and efficient return service** is as important as a professional and punctual shipment. Planning a careful management of logistics also means anticipating your customers' behavior, who may need to send back their order to change or replace it. Responding to these requests in a timely manner is crucial, and we can help you do so.

MBE eShip

MBE eShip is a suite of solution that can automate the **management of shipments** generated by an **e-Commerce website**, connecting them to **MBE's logistics management systems**. Both versions - **MBE eShip Web and Plugin** - allow online sellers to focus on their core business and delegate the management of shipments and returns to their local **MBE Business Solutions Center**.

Allows customization of prices

Easy to install

Compatible with the leading online sales platforms

Allows automatic creation of shipments

MBE SafeValue

If your online store deals with **valuables**, you may need to insure your products to **guarantee** their integrity during shipping.

With **MBE SafeValue**, we offer you a service covering the entire value of your goods.

We protect your shipments

From collection

to packing

to the final delivery

Our experts use the most professional packing techniques to protect your goods, by adapting the packaging to the specific characteristics of the product: whether they are fashion products, textiles or leather goods, prototypes, production machinery, hi-tech products, musical instruments, etc.

Coverage of the value
of the goods in case
of damage or loss
